

PROGRAM FÖR HÖSTEN 2017

“You are the World”

J. Krishnamurti förklarade ingen filosofi eller religion utan talade om det som berör vardagen, ett livsverk som ligger till grund för flera skolor.

J. Krishnamurti genomsyrades av det vetenskapliga förhållningssättet i sin renaste form. Under sextio år talade han till stora auditorier över hela världen med intention att göra människan - *absolut fri*.

WHAT IS LIFE | What is creation, the origin, the beginning? Public Talk 3 - Madras (Chennai), India - 4 January 1986.
What is life, the origin of all this, the rivers, the valleys, the glory of the land? Where are we at the end of two million years? Hasn't man always sought something through religion? Is the brain different from the mind? Can the brain communicate with the mind? When genetic engineering and computers meet, what are you as a human being? What is creation and what is invention? What gives life to a blade of grass? Is there meditation without effort with no routine, measurement, or comparison? Is there a brain that is not muddled up, muddled by environment, by tradition, by society?

15 OKTOBER

A WHOLLY DIFFERENT WAY OF LIVING | Order comes from the understanding of our disorder.

In conversation with prof. Allan W Anderson - Dialogue 5 - San Diego, California, USA - 20 February 1974.

Q: What is order in freedom? Unless we understand the nature and structure of disorder we can never find out what is order. How has the whole phenomenon of disorder come about? Is order something imposed, a discipline, which is conformity, suppression, imitation? Is order acceptance, obedience? Unless we understand the movement of thought we cannot understand disorder. A mind that is caught in measurement can never find truth. Is it possible to look without measurement? Is it possible to live a life, the whole of life, acting, laughing, crying, without a shadow of comparison?

5 NOVEMBER

WHAT BRINGS ABOUT DISORDER IN RELATIONSHIP? | Public Talk 4 - Madras (Chennai), India - 7 January 1979.

What is our relationship with each other? In that relationship, is there order? How will you bring order there? Is desire, the sensory responses with images thought has created, a factor of disorder? When pain is over, can one totally forget it, totally non-register it? When there is no relationship, isn't there fear? Are you aware at the moment of fear, not to let thought come into it, to realize it has no place at the moment of action? Why has there been so little beauty and communication with nature in our lives? At the instant of pleasure is there recording? Culture means to grow, develop the totality of one's life.
